

"Kaw Brand" Fertilizer

Why it is THE BEST

They are made from Stock Yards Manure, highly concentrated.

They contain everything required for the full maturing of any plant, and contain it in the right proportion.

They are built on a pure manure ash base.

One ton has the same available fertility as 20 tons richest UNLEACHED manure.

Because you return to the land exactly the same thing you have taken away.

They are ACTUAL SOIL BUILDERS, not chemical stimulants.

Summing up, considering statements of leading chemists and agriculturalists, Dr. Wiley of the U. S. Department of Agriculture included, Kaw Brands are worth \$5 to \$8 more per ton than the ordinary Commercial Fertilizer with the same analysis of ammonia, phosphoric acid and potash.

You cannot afford to risk ruining your land when you can just as well, without more cost, use actual soil soil-builders and increase producers by buying KAW BRANDS.

Ask us for them.

The Hen is Queen.

A lay on the Missouri hen, by Selected: "We have read of Maude on a summer day, who raked, barefooted, the new mown hay. We have read of the maid in the early morn, who milked the cow with the crumpled horn; and we've read the lays the poets sing of the rustling corn and the flowers of spring; but of all the lays of tongue and pen there's naught like the lays of the Missouri hen. Long before Maude had raked, her hay the Missourian hen had begun to lay, and ere the milkmaid stirs a peg the hen is up and has dropped her egg. The corn must rustle and the flower must spring if they hold their own with the barnyard ring. If Maude is needing a hat or gown she doesn't hustle her hay to town; she goes to the store and obtains her suit with a basket full of fresh hen fruit; if the milkmaid's beau makes a Sunday call she doesn't feed him milk at all, but works up eggs into custard pie and stuffs him full of custard fry; and when the old man wants a horn, does he take the druggist a load of corn? Not much. He simply robs a nest, to town he goes—you know the rest. He lingers there and he talks, perchance, of true reform and correct finance, while his poor wife stays at home and scolds, but is saved from want by those selfsame fowls, for while the husband lingers there, she watches the cackling hen with care, and gathers eggs, and eggs she'll hide till she gets enough to stem the tide. Then hail, all hail,

to the Missouri hen, the grandest blessing of all to men. Throw up your hat and make Rome howl! Corn may be king, but it's plainly seen the Missouri hen's the Missouri queen."

Six more or less necessary bridges will be built by the county within the next few months, but this part of the county is still permitted to whistle for bridges it has been asking for for years—bridges that are needed far more than any one of the six ordered. The attention of the gentlemanly candidates for the county court, in both parties, is called to the fact that a good many thinking votes are waiting hereabouts for a court that will make some definite promise of attention to our bridge needs.

The Monett base ball team continues its march to fame. Last Friday at Rogers, Ark., they won their 44th consecutive game by a score of 2 to 0, having already blanked Rogers 5 to 0 the previous day with Dutch Combs, the wooden-legged twirler, on the mound. Monett has gone completely to the "bugs" over their great team, and apparently with some cause. Almost every player on the team has been signed by some league club for next season.

An editor was asking for admission to heaven. "Can't let you in," said St. Peter; "the record of your good deeds never came to our exchange table." "But," said the editor, "the postal authorities are to blame if you didn't receive my paper." "Then you will have to go to the other place and fight it out," said St. Peter; "the postal authorities are all down there."

John Sheets was over in Cedar county one day last week in his auto and reports a rather remarkable typhoid epidemic over in that part of the country. Parties in position to know informed him that there had been not less than 500 cases in and near Stockton in the past few weeks. This seems a remarkable statement, but the number of deaths from the disease in those parts seems to give plenty of credence to it.

Free Child's Remedy

What mother is not looking for something that will help her children in the little ills of life, something for the stomach trouble and the bowel trouble? Long ago she probably has become convinced that a child cannot readily swallow a pill or a tablet, and that to "break them in half and crush them" is an annoyance; that usually they work too drastically, and are nauseating and too powerful for the little one's stomach. Any mother who will take the trouble of sending her name and address can obtain a free sample bottle of a remedy that thousands of other mothers are using and now paying for. This remedy is Dr. Caldwell's Syrup Pepsin, and the offer of a free trial bottle is open to any mother who has not yet used it. Having used it and convinced yourself that it is what you want, you can obtain it in the future of your druggist at fifty cents and one dollar a bottle, just as so many others are doing, the free sample being simply to convince you of its merits. It is the best way to begin on it. Mrs. L. Davis of 187 W. Harrison street, Chicago, and Mrs. Mary Belford, 1710 Coke street, Louisville, Ky., both started with a free sample and now they write that they have never been without a bottle in the house since.

It is undoubtedly a great family remedy, as it is adapted to all ages, being mild and pleasant to take and yet thoroughly effective. It is especially the ideal remedy for children and women and old folks, who need something pure, mild and natural. It has the advantage of being a thorough laxative and yet contains no properties. Use it for the most stubborn constipation, indigestion, liver trouble, sick headache, sour stomach and such complaints with a guarantee that it will cure. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. I explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.
